

STRATIS

SECURE

Executive Protection Service

Stratis Secure offer a full and comprehensive Executive Close Protection Service whether for a short term visit to a city or region or a longer term commitment to augment and enhance your existing personal security provision. All our operators are individually selected and have a wealth of relevant experience, excellent local knowledge and an array of both technical and physical tools to supplement the service to our clients.

'All Operators hold current SIA (Security Industry Association) licenses in accordance with UK legal requirements'.

Andrew Brown, Director of Special Projects at Stratis Secure, started his career in the Close Protection Unit of the Royal Military Police based at Longmoor. He has an extensive background in the field of security and close protection with over 16 years of experience in real world situations.

Since leaving the forces Andrew has worked directly in both the commercial and private sectors working on and managing security for individual clients and their families all over the world including high net worth, Government, Royalty, Military and Foreign Office projects.

Andrew also has an impressive training background having delivered personalised training courses to many Overseas Governments and Royal Protection Details.

Stratis Management and their Operators are all Tier 1 level experienced CPO's and Security Consultants with backgrounds as you would expect from ex-specialist units of the UK Armed Forces and Police. All have achieved the highest calibre of training and have vast, relevant experience as well as being UK Government Licensed with the SIA.

Security Consultancy

Identifying risks and planning to mitigate for them requires specialist skills and a total understanding of your business. At Stratis Secure we possess those skills and are able to give a variety of considered, intelligent options and solutions to our clients. Post consultation, or following one of the services listed, we are then able to recommend the appropriate strategies and processes to solve these issues or at least reduce the risk level posed by them.

Short Term Tasks

Should it be only a short visit to a city or region, you can rely on Stratis Secure to manage your trip efficiently with your welfare and security being our sole concern. You will receive a full analytical appraisal of current security factors which will be faced by us at every step and recommendations of how to counter any issues identified. Our staff and equipment being employed to suit your total requirements.

Full Term Projects

Should your organisation require long term projected support, Stratis Secure can offer a number of options; from a lone member of our team integrated within your staff to a fully equipped cohesive unit to add a wealth of experience ensuring your interests are safe guarded.

Executive Residential Surveys

Exclusive residences are regularly targeted by unwanted media or criminal elements. Stratis Secure can conduct full Physical and Technical Surveys of high profile residences or places of work in order to determine any weaknesses from which a Security Risk Assessment is drawn up. Stratis Secure can also check and advise on how any current security systems could be improved at these locations.

Threats against VIP's and executives can come in a variety of forms. They range from the media, a disgruntled employee, an obsessive fan, protestors, stalkers or criminal organisations may target you or your family. A full Security Threat Assessment can be conducted and then any security system upgrades implemented in the quickest possible way.

Residential Security Teams

Having a Residential Security Team (RST) in place gives peace of mind whether you are at home or away from the premises. The RST can also be deployed to premises that are vacant and awaiting sale or rental. Stratis Secure supply RSTs made up from Close Protection Operatives who have a strong background in this field of the security industry, all RST members are licensed by the SIA. The advantage of using Close Protection Officers is that they can be used to manage any other security requirements you or your family may have at that time. Our operators are personable, discrete and highly professional ensuring you and your family receive the utmost protection 24/7.

Surveillance

Modern surveillance cannot be totally avoided. However, non-state groups may employ surveillance techniques against an organization or individual, and some precautions can reduce their success.

Covert Surveillance / Counter Surveillance Operators

We understand that an individual or organisations right to privacy is paramount. Stratis Secure offer a full surveillance and counter surveillance package to assist in the tracking of assets or simply preventing intrusion into your private life. Our operators have a wealth of experience in these fields and provide only the best of services.

GPS Tracking

Worried about the location of a loved one, whether elderly or infirm or even your children? GPS tracking is a highly specialised service delivered by only a few and Stratis Secure can provide trackers that electronically 'geo-fence' an area, which if left, you will be alerted immediately. We can provide real time tracking or historical tracking data, all options are available according to your individual requirements.

Security Surveys

When moving to a new house, site, or office, a security survey should feature highly on your family or corporate agenda. Why take the chance of not fully understanding the region, area or building and not protecting yourself. At Stratis Secure we take a methodical approach in assessing a location or venue's vulnerability. We believe in options and choice, our clients are provided with carefully considered recommendations that give them just that

Security Audits

Stratis Secure utilises business analysts and risk management professionals to undertake variety of different surveys that identify vulnerabilities and threats that might exist for your business; or help discover how and where your business is being taken advantage of. An audit will give you a fact based account of any issues or problems within your organisation; it's the first positive step forward.

Security Advisors

Our operators are on hand to accompany and assist organisations wishing to establish themselves Internationally or who are just undertaking short fact finding missions in third world regions. Stratis Secure are able to advise on all matters related to security, providing intelligence based solutions to perceived problems and dealing effectively with a realm of possible scenarios you could encounter.

On-line Reputation Management / Social Media Review

Every person and organisation has an on-line footprint. The world thrives on utilising the Internet for business and networking – both professionally and privately. This can be both a positive asset and a negative hindrance and one over which you have little control.

Such is the power of social media that in today's world, hard earned reputations forged over years can be destroyed in minutes. The speed and ease in which people express their views on-line increases daily and opinions are formed and published, often without evidence. Without appropriate management, businesses and reputations can be destroyed without any consideration of the consequence.

Social Media Analysis is a tool Stratis Secure can offer which monitors your on-line profile and that of your interests in a controlled manner - a specific and bespoke service that gives you a complete overview of what is being said on a weekly basis both on Social Media and the wider World Wide Web.

Stratis Secure have the software technologies as well as the human expertise to understand on-line trends through 24/7 monitoring of deep web and data sweeps. From this an accurate assessment can be made to ensure personal safety, assets and reputations are not compromised as it allows time for additional measures to be taken. Analysis is documented and interrogated on a weekly basis, allowing you to review the headlines.

Investigations

The Investigational Team at Stratis Secure have a wealth of experience in dealing with internal investigations at a corporate and criminal level, the collation and handling of evidence and the interviewing of suspects. Gathering of the best evidence can only be achieved by thorough and complete investigational processes, something we pride ourselves in offering. This service is ideally suited for those pre-empting reclamation through insurance companies.

Business Continuity and Crisis Management / Emergency Preparedness

Stratis Secure can enhance your organisational resilience through effective Business Continuity, Emergency and Security Management Services, giving your organisation the edge when disruption threatens your reputation and services and enabling you to explore new markets and environments with confidence.

Our consultants have both academic and professional experience having worked in a number of environments and are fully conversant with the latest ISOs and good practice including ISO 22301 Societal Security - Business Continuity Management Systems - requirements including:

- Identify and manage current and future threats to your business
- Take a proactive approach to minimizing the impact of incidents
- Keep critical functions up and running during times of crises
- Minimize downtime during incidents and improve recovery time
- Demonstrate resilience to customers and suppliers

Countering Industrial Espionage - The 'Sweep'

INFORMATION is power; it is the life blood of any organization and business. Loss of it can be catastrophic. Where should companies look for potential eavesdroppers? He, or she, can be categorized in a number of ways; they can be a member of some Hostile Intelligence Service (HIS), a friendly foreign government, an activist, dissident, competitor, reporter, vendor, union, company employee, member or official of your own organization or even a neighbour.

In brief, there is no standard description of an eavesdropper; he or she could be anyone. Stratis Secure have the capability to conduct full and professional technical sweeps and are able to offer advice about your location's physical security.

The service consists of three phases:

- Phase 1 Client meet, where we discuss the client's vulnerabilities.
- Phase 2 Psychical examination and technical inspection of the site.
- Phase 3 A post operational report, with all findings and recommendations given.

Finally there are two important questions for you to consider:

- How valuable is your information to your competitors?
- How would the loss of this valued information affect your business?

Maritime Services

The need for trained and competent maritime security personnel is paramount and there has been a dramatic change in the way that the maritime industry thinks about maritime security since the imposition of the International Ship and Port Facility Security (ISPS) Code in July 2004.

You've chosen the vessel, selected the staff and thought of the full itinerary can you be confident of your security provisions? Piracy figures have exploded in the past four years. At Stratis Secure we have experience from dealing with negotiations and the protection of vessels and their crews to International delivery escorts and mooring protection.

Stratis Secure offer a diverse and individually tailored service at all levels - both personal and corporate. All our solutions are designed to suit each client exactly, should you require a service that is not listed, please ask a member of our team - we are confident that you will receive a positive answer.

'Let Quietness and Confidence be your Strength'

Datatag ID

Datatag is the UK's most trusted supplier of security marking technologies and the power behind the construction, agriculture, motorcycle and marine industries official marking and registration schemes in the UK.
